**RE: Gravel Road Pavement Resurfacing
Monroe County Highway Preventive Maintenance Project #5**

Dear Neighbor:

Keeler Construction is scheduled to begin milling and paving roadway work on Gravel Road between Regina Drive and Klem Road the week of July 23, 2018, as part of a Monroe County pavement resurfacing project. See the following page for a location map. The work will include milling off the top layer of existing road asphalt then we will apply a layer of new asphalt to the road surface and install new pavement markings.

During construction, traffic will be maintained with daily lane closures as needed. Flaggers will be used to guide traffic around the work areas. Continuous access to driveways and side streets will be maintained, except when work is occurring directly in front of these access points. In these situations, the delay will only be for a brief time until construction personnel indicate that it is safe to cross the work zone.

The work will progress rapidly and is expected to be completed by mid August. All work will be performed during the day. We apologize for any inconvenience this may cause you, and ask for your patience during this short construction duration. Alan Boyer is the full time inspector assigned to this project. If any questions or concerns arise during construction, please contact Alan at 585-281-4742 or email aboyer@clarkpatterson.com. You can also contact me at 585-753-7729 or email hherdrik@monroecounty.gov.

Sincerely,

A handwritten signature in blue ink that reads "Henry Herdrik".

Henry Herdrik, P.E.
Transportation Project Manager
